Picton Smart and Connected Public Spaces Working Group's Picton & Waikawa Submission

3rd May 2019

Picton Smart & Connected Public Spaces Working Group is making submissions relating to Picton and Waikawa area.

The group has been looking at what improvements could be made in our area for the benefit of the communities. A timeline plan has been developed as listed below.

With the high exposure that our area has from tourists, walkers, bikers, people off cruise boats, general public, etc, we need to ensure we look good all the time.

We are not only a stop over town, but also a gateway to the Sounds, Marlborough Vineyards and surrounding area, plus the start of the biking and walk trails.

The Picton Smart and Connected Public Spaces Working Group has gathered feedback from local people, iwi, visitors, businesses, property owners and tourist operators about the following items. Each of these groups have their own agenda so we, Picton Smart and Connected would like Picton and Waikawa to have one voice.

Our main visions are:-

- Safety, accessibility and protection of our environment
- Safeguarding key high profile public open space areas such as the Picton Foreshore Reserve, Victoria Domain (including Shelly Beach Endeavour Park), Nelson Square, and Waikawa Bay Foreshore Reserve as a New Zealand icon
- Ensure our roadways and footpaths are suitable for all types of traffic ranging from trucks, cars, mobility scooters, walkers, bikes and visitor.

- An early engagement with, Marlborough District Council, Port Marlborough and Marlborough Roads with our working groups to ensure that the development plans are in keeping with the community.
- To keep Picton as a top visitor destination in the top of the South Island for all New Zealanders and tourists

Picton is the heart of the sounds, and the gateway to Marlborough. We care about the small things while looking towards the bigger picture.

We are a great resource with dedicated and knowledgeable volunteers who have the best interests of the community in their hearts.

Roads and Paths

Years 19 - 20
