

VISITOR ECONOMY WORKING GROUP - Planning for the new season

Our Visitor Economy Working Group has been a success story, in the past two years bringing together key stakeholders in the Cruise Ship Think Tank to anticipate potential and real issues, and find workable solutions. This working group takes a breath for a couple of months in winter, and will regroup shortly in anticipation of the new summer season.

You can visit the Facebook pages [Picton Smart & Connected](#), and [Picton My Place](#), for updates.

The [Picton My Place](#) page, set up to identify how we perceive our own town, is now evolving into a portal for what's happening in Picton – let us know if you have an event, or activity of interest to the community, and we'll do our best to get the word out. A lot of visitors are also checking this page to see what's happening in Picton – all year round!

If you'd like to get in touch – we have a new email address: info@pictonsmartandconnected.co.nz. Or you can visit our website for background on the working groups, steering group meeting notes, activities and to see who else in town is already involved! We have representatives of iwi, youth sector, Picton Business Group and MDC around the Steering Group table, and attend the Picton Regional Forum and other Marlborough development groups. Membership of working groups requires only enthusiasm and a commitment to your involvement (and whatever skills you can bring to the table!). For more details see the terms of reference on the website.
